SUMMARY

- Computer Science undergraduate with strong hands-on experience in **AI/ML** and **Full-Stack Web Development**.
- Built **LearnPath-AI**, a personalized learning platform using React, FastAPI, Supabase, and LLaMA 3.3-70B, and an **Event Management System** using React, Node.js, MongoDB, and Docker with multi-role access control, Razorpay payments, and Gemini-powered RAG search.

PROJECTS

LearnPath-AI | *LearnPath-AI*

- Built a full-stack AI platform generating personalized learning roadmaps and daily tasks using LLaMA 3.3-70B, with Firebase Auth, JWT-secured FastAPI backend, and Supabase PostgreSQL for storage.
- Developed AI-generated quizzes, streak tracking, skill radar charts, and score trend visualization, plus a floating AI chat tutor contextual to the user's learning goal.

Event Management System | *Event-Management-System*

- Built a full-stack event platform supporting multiple user roles (attendee, organizer, manager, admin) with session-based auth, Razorpay payments, and Cloudinary image uploads, deployed on DigitalOcean via Docker and GitHub Actions CI/CD.
- Implemented AI-powered semantic search using Google Gemini embeddings with RAG-generated responses, role-based access control middleware, Winston logging, and Swagger API documentation.

Fake News Detection | *Fake-News-Detection*

- Trained a Bidirectional LSTM and TF-IDF pipeline on 44,000+ news articles to classify fake vs. real news, achieving 80% accuracy with precision-recall evaluation and confusion matrix analysis.
- Deployed the model as a REST API with a React frontend, letting users input any headline and receive instant credibility scores with confidence visualization and keyword highlighting.

EDUCATION

IIIT Sri City <i>Bachelor of Technology in Computer Science; CGPA: 7.6/10</i>	Aug 2023 – Present
Sri Chaitanya <i>Intermediate (Class XII)</i>	Aug 2021 – May 2023
Aryabhatta Concept School <i>Secondary Education (Class X)</i>	Aug 2020 – May 2021

SKILLS

Technical: Python, Java, HTML5, CSS, React, AWS, FastAPI, Node.js

Coursework: Machine Learning, DBMS, Data Structures and Algorithms, Operating Systems, OOP

ACHIEVEMENTS

- Secured **1st Place** at **TechSprint Buildathon**, organized by **GDG IIIT Sri City** in collaboration with Hack2Skill, as part of Team Wesley Techie.
- Awarded **Most Promising Idea** at **IdeaVerse'26**, IIIT Sri City, as part of Team **MultiVitamin**.
